Subject: newsletter and community meetings

Ruben,

Once we pass the budget, I'd like to send out a newsletter to as many constituents as possible via constant contact, I guess, to brief the community about the budget. There actually is a lot of good stuff in it and I think there's a very positive story to tell about the direction we're moving in. Also, I want to provide the community some context for the raises (the 7 year reclass plan, 70% of market, etc.) and give them an opportunity to respond (whether they're angry, upset, or have questions).

Once we've done that, I'll pull together a powerpoint and Celeste, let's you and I talk about dates for neighborhood meetings after that.
