Lee, Erich,

Thanks again for your assistance and guidance.

Here's the latest draft from last night. I still have to fact check a few things.

I've tried to adhere to the guidelines in the ethics code as much as possible. I added commentary about (1) the fact that we achieved savings in the budget due to reforms and cost-cutting measures in the past, and (2) about the the fact that the court has supported increasing wages at UMC and through the prevailing wage rate survey.

I still have to do one more round of editing, but I won't be adding anything substantive anymore. I would like, if possible, to get out by the end of the day.

Thanks!!!

Veronica Escobar
